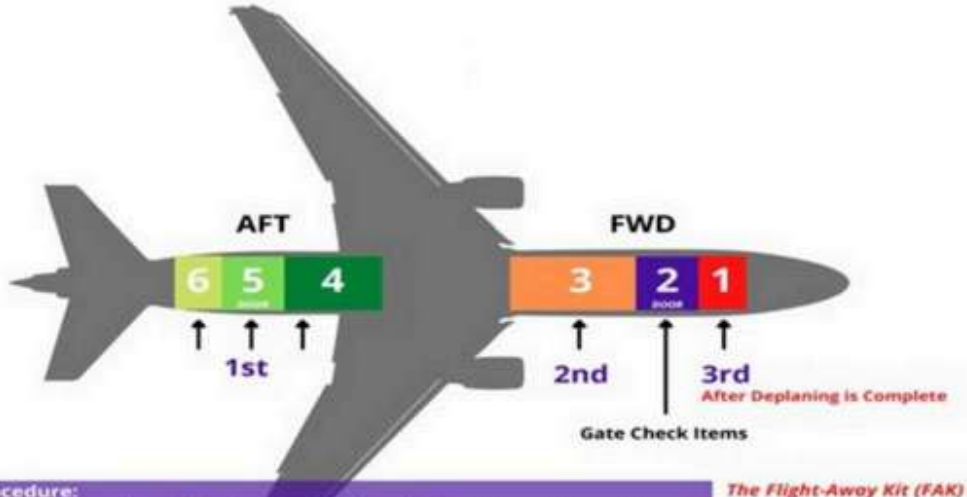
-GUIA PARA LA DESCARGA DE EQUIPAJE:

Aircraft Offloading Guide



Unloading Procedure:

- The **AFT Pits** must be unloaded first upon aircraft arrival.
- **Pit 3** must be unloaded after the **AFT Pits** are fully unloaded.
- **Pit 1** may not be unloaded until Customer deplaning is complete.

Note: Gate-checked items must be unloaded first and delivered plane-side upon arrival. Gate checks are the only items that may be removed from the FWD prior to the AFT pit being unloaded.

The Flight-Away Kit (FAK) must always remain onboard the aircraft in Pit 1.

-GUIA PARA LA CARGA DE EQUIPAJE:

Baggage Loading Guide

Loading Procedure:

- **A minimum of 10 bag**s must be loaded in **Pit 1** before loading any other pits.
- After loading **Pit 1**, proceed to load **Pit 3** with the remaining load **up to 65 bags**.
- Once the **combined 75 bag limit** has been reached for the **FWD pits**, all excess bags must be loaded in **Pit 4 (AFT)**.
- Loading of the **AFT cannot begin** until the **FWD pit has been fully loaded.**

Note: Gate-checked items do not count toward the forward Pit limit.
